O.P. Oksiyuk & V.N. Zhukinskiy. Ecological Standards of Water Quality for the Ros river 129

Number 2

T.F. Shevchenko. Blue-green Periphyton Algae of the Cooling Pond of the Chernobyl Nuclear Power Station Until and After the Accident 3

O.P. Oksiyuk. Ecological Standards of Water Quality for the Shatsk Lakes 21

P.D. Klochenko & V.A. Medved'. The Influence of Lead and Copper on Some Indices of Vital Activity of Green and Blue-green Algae 39

O.S. Rusinova, L.P. Astachova & V.I. Luschak. Influence of Temperature Acclimation and Actinomycin D on the Carbohydrate Metabolism in Liver and Muscles of *Mullus barbatus ponticus* 52

B.Z. Kaufman. Preferential Behavior of *Pontoporeia affinis* Lindstrom (Crustacea, Amphipoda) 60

N. V. Bren'. Use of Invertebrates in Monitoring of Aquatic Ecosystems Contaminated with Heavy Metals (A Review) 66

L. A. Koval'chuk & N. M. Litvinenko. Statistical Analysis of Reliability and Accuracy in Evaluation of Mussel (*Mytilus galloprovincialis* L.) Population Numbers 80

L. V. Shevtsova, H. U. Balford & V. Moshanu. Methodological Approaches to the Inclusion of Hydrobiological Indices into the Model for Management of the Dniester River Water Resources 88

V. V. Udovichenko, V. I. Nabivanets & V. V. Sukhin. Accelerated Method for the Determination of Chemical Oxygen Demand in the Natural Waters 100

A. D. Fedorovsky, L. A. Sirenko, A. J. Khodorovsky & A. D. Ryabokonenko. Use of Space Information for the Control of Water Bodies in the Chernobyl Zone 108

L. A. Zhuravlyova & A. A. Morozova. Runoff of the Total Suspended Phosphorus from the Dnieper-Bug Mouth Area into the Black Sea 117

O.P. Oksiyuk, O.A. Davydov, G.V. Melenchuk & Yu.I. Karpezo. Peculiarities of Phytoplankton of the Kiev Section of the Kanev Reservoir Depending on the Operating conditions of the Kiev Hydro-Electric Power Station 122

Number 3

A.F. Alimov. Productional Characteristics of Lake Ecosystems 3

A.A. Protasov, O.O. Sinitsyna, R.A. Kalinichenko, O.A. Sergeyeva, A.A. Silayeva & Ye.A. Golubkova. Plankton, Benthos and Periphyton of the Cooling Pond of the Khmelnitskaya Nuclear Power Station 16

T.A. Zotina. Vertical Distribution of Phytoplankton in Salt Lake Shira 35

A. D. Gordina, A. V. Tkach & S. D. Sevrikova. Ichthyoplankton Responses to Anthropic Influences in the Zones of the Black Sea Harbors 45

V. Burkovskiy, A. K. Kashunin & A. I. Azovskiy. The Community of the White Sea Microbenthos as an Indicator of the Sate of the Aquatic Environment 54

A. A. Zhidenko, V. V. Krivopysha & V. V. Grubinko. The Role of Brain γ-Aminobutirate Shunt in Adaptaition of Fish to Extreme Environmental Factors 64

A. D. Fedorovskiy, L. A. Sirenko, K. Yu. Sukhanov & V. G. Yakimchuk. Methodical Aspects of Decoding the Space Images of Aquatic Vegetation Landscapes for the Estimation of the Ecological State of the Mouth Areas of Rivers 75

K. M. Khaylov, Yu. Yu. Yurchenko & D. M. Smolev. A Methodology for Studying the Bioinert System "Solid Substratum – Organisms – Water flowing around them" 86

O.B.Stolyar, V.Z. Kurant, V.A. Khomenchuk & P.B. Balaban. Influence of Sublethal Lead Concentrations on the Content of Thiol Compounds and Proteins in Carp Organism 99

I.V. Pan'kov & A.D. Andreyev. Peculiarities of Radionuclide Accumulation by Representatives of "Soft" Benthos after the Chernobyl Accident 106

A.S. Potrokhov & O.G. Zin'kovskiy. A New Antistress Preparation, Glycilanilid, and the Method of its Use for Pisciculture 116

E. P. Shcherban' & S. P. Ponomarenko. Assessment of Toxicity of Plant Growth Regulators by Biotesting on *Daphnia magna* Straus 123

Number 4

Yu. P. Zaitsev. The Black Sea in Works of Ukrainian Hydrobiologists of the 20th Century: A Review 3

A.N. Grishin. Peculiarities of the Biology of *Mnemiopsis leidyi* (A. Agassiz) under Conditions of the Black Sea 26

L.I. Lokot'. Species Diversity of Free-Living Plankton Ciliata in Lakes of Dry and Plain Steppes (the Baikal Area, Mongolia) 35

V.V. Zavoruyev. Dynamics of the Concentration of Chlorophyll and Photosynthetic Activity of Algae in the Ice of a Fresh Water Body 45

O.G. Mironov. Biological Problems of Oil Contamination of Seas 52

V.I. Shcherbak. The Influence of the Duration of Exposition on the Indices of Phytoplankton Primary Production in Eutrophic Water Bodies Using the Bottle Method in the Oxygen Modification 68

T. A. Kharchenko, A. V. Lyashenko & I. Kh. Bashmakova. Retrospective Analysis of Water Quality in the Lower Reaches of the Danube 75

M. V. Milyukin. Solid-Phase Extraction of Organic Semivolatile and Non-volatile Compounds Contaminating Natural Waters in Trace Amounts 90

V. Pan'kov , S. A. Afanas'yev, V. A. Maksimovich & T. P. Prityka. The Role of Some Invertebrates in Radionuclide Migration through the "Bottom Sediments – Water Column" Phase Division (Interphase) 101

D. B. Kosolapov & B. B. Namsarayev. The Microbial Metabolism of Organic Carbon in Bottom Sediments of the Rybinsk Reservoir 109

Yu. D. Konovalov. Metal-binding Proteins of Mature Fish Eggs 117

D.I. Stom & T.A. Geel. Toxic Action of Organic Compounds and Heavy Metals on *Epischura baicalensis* and *Daphnia magna* in the Presence of Fodder Organisms 130

Number 5

E.N.Volkova, V.V.Belyaev, Z.O.Shirokaya, V.G.Klenus, A.E.Kaglyan, M.I.Kuz'menko, T.P.Prityka & V.A.Karapish. Radioactive Pollution of Water Bodies of Ukrainian Polissya and the Form of Presence of Radionuclides in Some Components of Aquatic Ecosystems 3

A.A. Protasov & O.O. Sinitsyna. Phenotypic Differentiation of the Sub-Population Groups of *Dreissena Polymorpha* Pall. under Conditions of a Heterogeneous System of Water Bodies 21

O.M. Usenko, A.I. Sakevich & P.D. Klochenko. Involvement of Photosynthesizing Hydrobionts in Decomposition of Urea 35

S.M. Ignatyev. Main Results of the Study of Zooplankton of the Arabian Sea by the Institute of Biology of the Southern Seas, National Academy of Sciences of Ukraine 47

N.K. Revkov, Ye.A. Kolesnikova, N.A. Valovaya, T.V. Mikhaylova, S.A. Mazlumyan & V.K. Shalyapin. Benthos of the Coastal Zone of the Southern Shore of the Crimea (Balaklava – Cape Aya): its Composition and State 57

V.M. Timchenko & S.S. Dubnyak. Ecological Aspects of the Hydrological Regime of the Kiev Section of the Kanev Reservoir 67

V. D. Solomatina, M. V. Malinivskaya, M. A. Fomovskiy & N. A. Mogilevich. Peculiarities of Fish Metabolism under Conditions of Radioactive Pollution 79

B. I. Nabivanets, P. N. Linnik & V. V. Udovichenko. Methods for Determination of Chemical Oxygen Demand in the Natural Waters 87

E. D. Gopchenko & N. S. Loboda. An Evaluation of Possible Changes in the Water Resources of Ukraine under Global Warming Conditions 105

E.P. Scherban', I.N. Konovets & O.M. Arsan. Study of the Algerian superphosphate toxicity for *Daphnia magna* and *Ceriodaphnia affinis* 118

A. P. Pasichny, I. M. Velichko & Ye.A. Pasichnaya. Electrophysiological Aspects of Biotesting of Toxicity of Aquatic Environment using Hydrophytes 126

A.V. Shulyarenko & L.A. Zhuravleva. The Content and Regularities of Distribution of Iodine in the Dnieper Reservoirs 145

Number 6

L.V. Shevtsova, N.G. Tkachuk, V.V. Malafeyev & V.V. Vasilkovskaya. The Ecological and Sanitary State of the Lybed River 3

E.P. Shcherban', I.N. Konovets & O.M. Arsan. Assessment of Cuproxyl Toxicity by the Method of Bioassay Using Cladocera 15

G. P. Polovinko. Microbiological Studies of Water and Mucilaginous Biofilms in the Source of the Ob River in the Section Contaminated by Industrial Sewage 22

T.M. Mikheyeva & Ye.V. Lukyanova. Role of Picoplankton in Phytoplankton Communities of Freshwater Ecosystems (an Overview) 32

A.A. Kovalchuk. Epiphytic Ciliata of the Dnieper Reservoirs 45

P.D. Klochenko, A.I. Sakevich, O.M. Usenko & T.F. Shevchenko. Changes in the Structure of Phytoplankton under the Influence of Urea 65

N.I. Kirpenko. Dynamics of the Content of Different Forms of Nitrogen in the Medium Used for Intensive Cultivation of *Chlorella* 78

L.Ye. Mikhaylenko & L.I. Bagnyuk. Regularities of the Functioning of Bacteria of the Kremenchug Reservoir 86

G.N. Oleynik & A. Sventetskiy. Microorganisms of Fouling of Anionite of Water Treatment Setups of Thermal Power Stations 99

T. A. Vasilchuk & P.D. Klochenko. Dynamics of the Content of Nutrients and Organic Matter in Some Tributaries of the Dnieper River Depending on the Development of Phytoplankton 111

V.G. Drabkova, Z.G. Kaurova & N.L. Khlopotina. Peculiarities of the Heterotrophic Activity of Bacterioplankton in the Estuary of the Neva River (Neva Bay and the Eastern Part of Finish Bay) 122

Contents for 2001 134
